How To Use This Directory

100 tools is too many. You need five.

One hundred tools is overwhelming. You need five. Here's how to use this book:

- **1. Identify your bottleneck:** What's the ONE task eating most of your time? Find its category.
- **2. Read the category guide:** Each category starts with 'How to Choose' - read before browsing tools.
- **3. Try ONE tool's free tier:** Don't compare 10 tools. Pick the top recommendation and test it this week.
- **4. Keep what saves 2+ hours/week:** If it doesn't save significant time after 2 weeks, cancel it.
- **5. Rebuild every 6 months:** AI tools evolve fast. What's best today may be obsolete in a year.

WHY IT WORKS: *Golden rule: a tool you don't use weekly is a subscription, not a solution. Cancel ruthlessly. The average solopreneur wastes $200+/year on unused subscriptions.*

Pricing note: All prices are approximate as of 2026 and change frequently. Always check the provider's site. 'Free' means a usable free tier exists. 'Paid' means no meaningful free option.
