How To Use This Book

Copy, customize, send

Cold email works when it is relevant, personal, and respectful of the reader's time. This book gives you 30+ ready templates for every common situation — job search, freelancing, sales, networking, guest posts, partnerships — plus subject lines, follow-up sequences, deliverability basics, and tracking.
How to use each template:

- **Replace every [bracket]:** brackets mark what YOU must customize. Never send a template with brackets still in it.
- **Personalize the first 2 lines:** one specific observation about them beats ten generic compliments.
- **Keep it short:** most templates here are under 150 words. If yours is longer, cut it.
- **One ask per email:** every template ends with a single, low-friction call to action.

WHY IT WORKS: *The best outreach email is one the recipient could not have received from anyone else. If you can swap in a different name and company without changing anything else, it is not personalized enough.*
