How To Use This Book

Your interview playbook

Interviews are not about having perfect answers. They are about having prepared stories, understanding what each question is really testing, and communicating with confidence. This book gives you the full bank: behavioral, technical, situational, and remote-work questions, plus the STAR method, sample answers, salary scripts, and the questions YOU should ask the employer.

Work through this book in three passes:

- **Pass 1 — Learn the game:** read Parts 1-2 to understand how interviews work and how to structure answers with STAR.
- **Pass 2 — Build your inventory:** answer the worksheet prompts in Part 3 so you have 8-10 stories ready for any behavioral question.
- **Pass 3 — Drill:** pick 5 questions per category, say answers out loud, time yourself. Confidence comes from repetition.

WHY IT WORKS: *Interviewers remember stories, not adjectives. 'I'm a great team player' is forgettable. A 90-second story about saving a project with a teammate is memorable. Every answer should contain at least one concrete example.*

Your goal for this book:

Target role:

Industry:

Biggest interview worry:
