How To Use This Guide

From knowledge to income

You know something valuable. This guide turns that knowledge into a tutoring business: choosing your niche, setting up, finding students, delivering great sessions, and scaling beyond 1-on-1.
The tutoring market is booming: test prep, academic subjects, languages, music, professional skills. Low startup cost, flexible hours, meaningful work. Let's build it.

- **Part 1 — Foundation:** niche, positioning, and business setup.
- **Part 2 — Setup:** tools, pricing, and your offer.
- **Part 3 — Students:** where to find them, how to convert.
- **Part 4 — Teaching:** deliver sessions students love.
- **Part 5 — Scale:** groups, courses, and beyond 1-on-1.
- **Part 6 — Business:** money, legal, and growth systems.

WHY IT WORKS: *You don't need a teaching degree to tutor successfully. You need: deep knowledge of ONE subject, the ability to explain clearly, and reliability. Expertise + communication + consistency = tutoring business.*
